WALL CONTROL PANEL (MARSICO)

GETTING STARTED

If the projector is off, press **On** to start the system.

In these rooms select a **SOURCE DEVICE**. The selected device will light up.

The **VOLUME CONTROL** knob is under the power control. In rooms where audio is through the projector, it is not particularly loud. Be sure to increase the volume on the computer as well as in the program you are using.
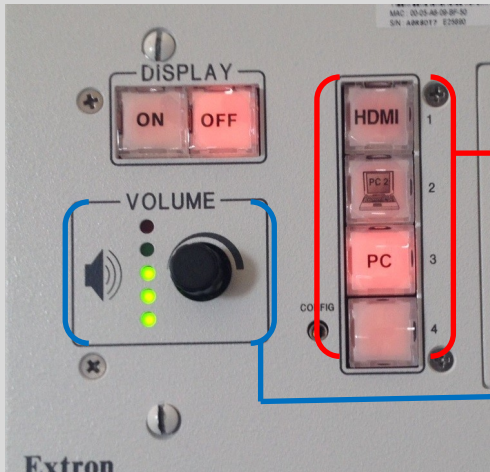

Exact button position may vary by room.

SHUTTING DOWN

PLEASE shut down the system by pressing the Off button on the Wall Panel.
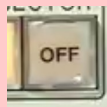

Guides and Resources for School of Medicine IT Classrooms can be found at http://go.unc.edu/CHMEDHelp .

FREQUENTLY ASKED QUESTIONS

Where is the microphone?

Rooms with MLC Wall Panels do not have microphones due to size.

Do I turn off the projector when I'm done?

Yes. Please press the OFF button on the wall panel to shut down the projector.

Can you please help me???

Contact our classroom support help desk using the intercom on the wall near the panel.
