Wall Control Panel (NRB)

Getting Started

If the Wall TV Display is off, press On to start the system.

In these rooms select a Source Device. The selected device will light up.

The Volume Control knob is under the power control. Be sure to increase the volume on the computer as well as in the program you are using.

To blank the image going to the television, press Video Mute.

Shutting Down

Please shut down the system by pressing the Off button on the Wall Panel.

Frequently Asked Questions

Where is the microphone?

Rooms with MLC Wall Panels do not have microphones due to size.

Do I turn off the television when I’m done?

Yes. Please press the OFF button on the wall panel to shut down the projector.

Can you please help me???

Contact our classroom support help desk using the intercom at the podium.
